HEALTH

During the 2024 Annual Council Meeting both Loma Linda University and General Conference Adventist Health Ministries have teamed up to share a few highlights of many activities. These span all facets of wholistic well-being and health – body, mind, spirit, social, emotional, and relational. From patient care to recovery programs; from research to dental programs, nursing care and lifestyle centers. We have a blessed and fruitful partnership as together we Share Wholeness, Serve All, and strive to Make Men and Women Whole, by God's grace and through His power.
